Annual Conference Keynote Speaker

The MiALA Conference Committee is thrilled to announce Data Driven Detroit as our keynote speaker for the 2018 Annual Conference.

Started in 2008, D3 provides accessible high-quality information and analysis for socially minded groups seeking to use data to support decision-making. D3 seeks to collaborate and partner to create positive community change in Detroit and the region. We are excited to have D3 joining us in East Lansing to help us learn more about their work using good data to drive progress.
