Starting Points

Find Funding

Whether you're looking for internal funding for a pilot or feasibility study, or just need recommendations on external funding resources like federal agencies or industry — start your funding search here! Search funding databases, set up email alerts to stay informed of new opportunities, and focus your search with these easy to use [Find Funding Tools](#).

Funding Search Consultation

Looking to fund your next big idea but overwhelmed with where and how to start your search? Connect with the Informationists of the U-M Library, who offer personalized, expert funding and grant search consultation to University of Michigan faculty and staff.

Upcoming Research Seminars, Events, & Trainings

Medical School Office of Research Events

Whether you're looking for a workshop on grant proposal preparation or just want to learn more about how to take your project from bench to bedside, visit the Medical School Office of Research's [Events](#) page to learn about the latest biomedical research training and events being offered throughout the Medical School, U-M Health System, and the U-M.

Office of Research and Sponsored Projects (ORSP)

The U-M research enterprise can be difficult to navigate. The Office of Research and Sponsored Projects offers a variety of training programs and workshops to help researchers and research administrators learn the ins and outs of research administration at the U-M.
